

law	process	status
serial_renewal_densification	open densification	physical and directly implemented
capillary_onsager_stress_balance	stress/power accounting	physical and directly implemented
excess_power_PR_desintering	topology	reduced phenomenological
conservative_pore_population_evolution	pore topology	physical and directly implemented
removable_to_trapped_or_closed_transition	topology	reduced phenomenological
closed_pore_shrinkage_with_finite_accommodation	closed densification	physical but missing parameters
Zener_pore_size_pinning	grain growth	physical and directly implemented
intrinsic_growth_times_activity	grain growth	physical and directly implemented
PR_prepared_closed_accommodation_memory	closed preparation	reduced phenomenological
Chen_window_classification	classification	computed diagnostic
fast_firing_nucleation_onset	nucleation	physical and directly implemented
candidate693168_reduced_closed_channel	reduced comparator	reduced phenomenological
